

Appendix E. Overlap Between Key Data Sources

Data Source	Administrative Data-CRS Patients	CRS EHR Documentation Data	Patient Survey (Baseline)	Patient Survey (3 Month Followup)	Inclusion criteria	Inclusion dates	Tables and Diagrams Where Referenced
Administrative Data-CRS Patients	420				1) At least one full encounter with the CRS, 2) 18 or older, 3) enrolled at Group Health at time of encounter with CRS	6/1/2014 -- 9/30/2015	Table 5, Appendix I
CRS EHR Documentation Data	279	418			1) At least one full encounter with the CRS, 2) no new appointments for 2 months after 12/31/2015 (note: included ALL ages)	6/1/2014 -- 12/31/2015	Tables 6, 8-10, Figures 3, 4, 6-12
Patient Survey (Baseline)	113	112	169		1) Appear in CRS Registry, 2) 18 or older, Group Health member, enrolled at one of the pilot clinics*	3/22/2015 -- 1/29/2016	Table 7
Patient Survey (3 Month Followup)	163	124	104	196	1) Appear in CRS Registry, 2) 18 or older, 3) Group Health member*	8/8/2014 -- 12/31/2015	Table 7, Figure 13
Administrative Data-Control Patients	1036				Up to 3 individuals matched to CRS patients based on: 1) health care utilization in the index month, 2) race/ethnicity, 3) duration of enrollment before CRS visit, 4) age, 5) gender, and 6) ACG RUB. **	6/1/2014 -- 9/30/2015	Table 5, Appendix I

* In addition, for the patient surveys some subjects were deemed not eligible upon telephone follow up if they were unable to

complete the survey because of language, a health condition that prevented participation, or because they were deceased.

** Some CRS patients were matched with only two controls if a third comparable control could not be identified
